

FINE MOTORS

Cutting lines: Ask your child to cut along the line using long, smooth snips. Remind your child to hold the paper in his non-dominant hand, moving the paper to create the direction changes.

Tip for parents: After your child finishes coloring a picture, challenge him to cut the picture out by cutting neatly along the outline of the picture.

Why keep the fun all to yourself? Please feel free to share this worksheet with friends. See more at [KiDoTi.com](https://www.kidoti.com)
