

Listening for digraphs: Ask your child to read aloud the sound made by the digraph in the middle circle (or read it aloud for him). Ask him to name each picture and draw a line connecting the digraph to each word that contains it.

Tip for parents: Say a long list of words, many starting with the "ch" sound. Ask your child to point to his chin and repeat the "ch" sound for each word that begins with the "ch" digraph.
