

Counting and matching to numbers: Count the items on each row and circle the corresponding number. Ask your child to use one-to-one correspondence, touching each picture while counting.

15 16 17

16 17 18

14 15 16

Tip for parents: While at the computer, challenge your child to count the number of keys in each row on your keyboard. Point out that some keys may be wider than others, but each key only counts as one.

Why keep the fun all to yourself? Please feel free to share this worksheet with friends. See more at [Kidoti.com](https://www.kidoti.com)
