

Matching pictures to shadows: Draw a line between each picture and its shadow. Direct your child to focus on details such as curves or angles in the outline of each full-color picture.

Tip for parents: Decorate empty paper towel or toilet paper tubes to make visual discrimination games like "I Spy" even more fun. Tape two decorated rolls together to make binoculars.

Why keep the fun all to yourself? Please feel free to share this worksheet with friends. See more at [KiDoTi.com](https://www.kidoti.com)
