

Counting and matching to numbers: Count the items on each row and circle the corresponding number. Ask your child to use one-to-one correspondence, touching each picture while counting.

11 12 13

12 13 14

13 14 15

Tip for parents: A computer keyboard is a great way for your child to practice numbers. Encourage your child to type his favorite numbers, saying aloud the number as he types.
