

Filling in the missing numbers: Ask your child to begin counting with the first number in each row. When he reaches an empty box, ask him to write in the missing number.

6	7	8			11	12	13
---	---	---	--	--	----	----	----

11	12	13	14		16		18
----	----	----	----	--	----	--	----

7	8		10		12	13	
---	---	--	----	--	----	----	--

9	10			13	14		16
---	----	--	--	----	----	--	----

Tip for parents: Say aloud the numbers, in order from 1 to 20. Periodically skip a number and challenge your child to catch your mistake and tell you which number you missed.
