

**Putting ordinal numbers in order:** Cut apart the ordinal squares at the bottom. Then, for each column, ask your child to paste the ordinals in order next to the corresponding pictures.

2nd 5th 1st 4th 3rd 4th 5th 3rd 1st 2nd

**Tip for parents:** Have your child give you three movement commands, such as hop, clap your hands and touch your shoulders. Ask him to tell you which movement comes first, which comes second and which comes third.
