

Putting ordinal numbers in order: Cut apart the ordinal squares at the bottom. Then, for each column, ask your child to paste the ordinals in order next to the corresponding pictures.

 2nd 5th 1st 4th 3rd 4th 5th 3rd 1st 2nd

Tip for parents: Discuss the three (or more) steps that are involved in getting ready for bed (pajamas, teeth brushing, bedtime story). Ask your child to tell you which comes first, which comes second, and which comes third.
